SC SPEAKER CLOTH

Woven cloth for covering sound systems

Whether on stage or at the side of the stage, speaker systems need to be visually attractive.

At the same time the sound must not be blocked so that the sound quality is not impaired.

SC SPEAKER CLOTH provides the answer.

SC SPEAKER CLOTH net is especially designed for use with sound systems so that the **sound quality is not impaired** (acoustic certificate available).

SC SPEAKER CLOTH is fireproofed to B1 standards (DIN 4102 certified).

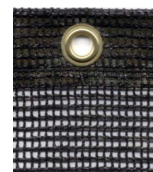

SC SPEAKER CLOTH can be printed with company logos, etc. (due to the mesh size only larger motifs can be printed).

SC SPEAKER CLOTH is:

- Washable
- Light but strong
- Easy to assemble and dismantle
- 100% recyclable
